Our Origin

In 2019, after realizing the lack of expertise and high pricing for subpar results at digital marketing firms, a new business venture called Proxy Digital Solutions was started by developing proprietary intent-based methods that use focused channels to deliver affordable and budget-friendly, result-driven solutions.

Success was not immediate, but we persisted and landed our first client after our 21st continuing proposal. The company grew exponentially since then and was able to compete with the most influential digital marketing firms in India.

In 2020, pertaining to an abundance of poorly programmed software, Techrowth Pvt. Ltd. was founded to offer a unique blend of services that empower businesses to achieve their goals not just through digital marketing but also through innovative and strategic programming solutions. Despite challenges, the journey has been worth it as the company continues to make a difference in the lives of its clients.

The Secret To Our Commitment

We have been using Techrowth Private Limited for our digital marketing service and digital asset development. We are happy with all of their services, support, and capabilities. We are happy to recommend Techrowth Private Limited's solutions and services: If you have any questions, please feel free to contact us.

We found our social media marketing services to be impressive. not only that they understand their requirements quickly, but they also came up with quite a few suggestions from their end. The design is refreshing, which is what my brand needed at this point in time. Techrowth rapidly increased both our site traffic and conversion rate through their targeted digital strategies. Their technical expertise and creative approach fostered real business growth for us online.

FIRST ALLIANCE BANK

Team Techrowth is so good at planning and executing digital marketing strategies. A key difference is that Techrowth knows how to tailor their digital services to our specific ambitions and the needs of our customers. They took the time to understand our business and then mapped out customised digital marketing solutions to drive sustainable success. Thanks
